

Corporate Responsibility: People, Products, Planet

Westlake Chemical is an international manufacturer and supplier of petrochemicals and building products that enhance the daily lives of people around the planet. The tires we ride on, the plastic wrap that keeps our meats and produce fresh, the pipes that are essential to ensuring clean water and the frames that secure our windows and doors all contribute to the health and well-being of communities everywhere. Westlake plays a vital role in supplying the building blocks for these products and many more.

Westlake is dedicated to the pursuit of best-in-class safety and environmental performance while preserving and enhancing life in the communities where we operate. Take a look at some of the ways we did this recently.

PEOPLE

8,870
Employees

IMPACT

Philanthropic Efforts

Westlake recognizes the importance of supporting the communities in which we work and live, and makes it a priority to take an active role in making these communities better. We support and encourage our employees to volunteer their time and efforts in worthwhile causes and donate funds to assist various charitable groups.

SAFETY

We are proud to have two Westlake Chemical facilities in Longview, Texas and Lake Charles, Louisiana that have earned the prestigious OSHA Star status. This is the highest award offered by the Voluntary Protection Plan (VPP) and is reserved for participants that exceed OSHA standards, thereby making them models for our industry. We are actively pursuing VPP certification at other facilities.

PRODUCTS

WHAT WE MAKE

Every day, Westlake products are seen, used and depended on throughout the world. We make and market approximately 40 billion pounds of petrochemical and fabricated products annually. Over the past two decades we have built a reputation for being a dependable, safe, world-class producer and supplier.

Westlake is an international corporation with the culture of an entrepreneurial firm. We are known for providing our customers with personal, responsive service. We strive for excellence in customer service, consistently providing quick answers and resolutions – all to help our clients develop, manufacture and market their own products.

Here is the role our products play in the journey to the end user:

→ INTEGRATED VALUE CHAIN

COMPLIANCE & TRANSPORT

Shipments of raw materials and finished products continuously flow in and out of company facilities, and Westlake is committed to ensuring this flow of materials meets safety and regulatory requirements.

In recognition of Westlake's commitment to the safe transport of products, the company has repeatedly received the BNSF Railway - Product Stewardship Award, CSX's Chemical Safety Excellence Award, and the Chlorine Institute - Diamond Leadership Award.

Production Capacity
