

BUSINESS SEGMENTS

OLEFINS SEGMENT

ETHYLENE & CO-PRODUCTS

Supplies our internal downstream needs in the polyethylene, styrene and vinyls businesses and co-products to the commercial market.

POLYETHYLENE

Polyethylene enables the innovative design and manufacture of products from food packaging and carton liners to dry cleaning bags, toys and garden tools and thousands of products used by consumers throughout the world.

STYRENE

Produces the primary raw material for polystyrene, coatings, polyester resins and other derivatives.

VINYLS SEGMENT

VINYLS CHEMICALS

Supplies our downstream building products businesses with PVC resin. Additionally, PVC resins and Caustic are sold into the merchant market.

NORTH AMERICAN PIPE

Provides a wide range of rubber gasketed, solvent welded, and restrained joint PVC pipes and fittings that are used in municipal water and sewer, residential plumbing, water well, mining, and turf and agriculture irrigation applications.

SUZHOU HUASU PLASTICS

Manufactures a wide range of products including PVC resin and a variety of film products.

VINNOLIT

Produces paste PVC specialties with a wide range of industrial and building product applications including automotive sealants, cable sheathing, flooring, medical applications, pipes, rigid film, technical coatings, wall covering and window profiles.

WESTECH BUILDING PRODUCTS

Produces products for residential and commercial construction including PVC decking, railing and fencing products, as well as profiles for windows and patio doors.

ROYAL BUILDING PRODUCTS

Manufactures and distributes leading materials for the home remodeling, building and municipal construction markets. Royal Building Products offers these markets a broad range of innovative products including siding, trim, accessories, soffit, rainware, mouldings and decking.
