Applications
- Hot melt adhesives
- Sealants
- Wax blends

Product Description
ELEVATE® EM284 resin is a 28% VA ethylene vinyl acetate copolymer. It is a low viscosity resin particularly suitable for hot melt adhesives. It contains a pellet handling additive commonly utilized to improve pellet flow in EVA resins having higher copolymer content and melt indices.

*a* Unless noted otherwise, all tests are run at 23°C (73°F) and 50% relative humidity.
*b* Unless noted otherwise, the test method is ASTM.
*c* Units are in SI or US customary units.

Notes
Physical properties are measured on compression molded specimens based on ASTM D 1928, Procedure C.

Processing
Please contact Westlake Technical Services for recommended processing conditions for EM284.

Regulatory Compliance
This product has some 21 CFR clearances. Please contact your Westlake Sales Representative for food contact statements.
