Section 1: Identification of the Substance/Mixture and of the Company/Undertaking

1.1 Product identifier

Product Name: Styrene Monomer, Stabilized

Synonyms: Cinnamene; Cinnamenol; Diarex HF 77; Ethenylbenzene; NCI-C02200; Phenethylene; Phenylethene; Phenylethylene; Phenylethylene, inhibited; Stirolo (Italian); Styreen (Dutch); Styrene (CZECH); Styrene Monomer (ACGIH); Styrene Monomer, Stabilized (DOT); Styrol (German); Styrole; Styrolene; Styron; Styropor; Vinylbenzen (CZECH); Vinylbenzene; Vinylbenzol

CAS Number: 100-42-5

EC Number: 202-851-5

REACH Registration Number: 01-2119457861-32-XXXX

1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified use(s):

a) Production of: expandable polystyrene (EPS);
b) Production of polystyrene (HIPS) and GPPS;
c) Production of styrenic co-polymers;
d) Production of unsaturated polyester resins;
e) Production of styrene-butadiene rubber;
f) Production of styrene-butadiene latex;
g) Production of styrene isoprene co-polymers;
h) Production of styrene based polymeric dispersions;
i) Production of filled polyols. Styrene is mainly used as a monomer for the manufacture of polymers (such as polystyrene, or certain rubber and latex)

1.3 Details of the supplier of the safety data sheet

Manufacturer: Westlake Styrene L.L.C.
900 Highway 108
Sulphur, LA 70665
United States
www.westlake.com

Telephone (General): 337-583-2200

1.4 Emergency telephone number

800-424-9300 – CHEMTREC

Section 2: Hazards Identification

EU/EEC

According to EU Directive 67/548/EEC (DSD) or 1999/45/EC (DPD)

2.1 Classification of the substance or mixture

CLP

- Flammable Liquids 3 - H226
  - Aspiration 1 - H304
  - Skin Irritation 2 - H315
  - Eye Irritation 2 - H319
DSD/DPD

• Flammable
• Harmful (Xn)
• Irritant (Xi)

2.2 Label Elements

CLP Hazard Statements

• DANGER

H226 - Flammable liquid and vapour
H304 - May be fatal if swallowed and enters airways
H315 - Causes skin irritation
H319 - Causes serious eye irritation
H332 - Harmful if inhaled
H335 - May cause respiratory irritation
H372 - Causes damage to organs - Ear/Ototoxin through prolonged or repeated exposure via Inhalation

Precautionary statements

Prevention

• P210 - Keep away from heat, sparks, open flames and/or hot surfaces. - No smoking.
• P233 - Keep container tightly closed.
• P240 - Ground and/or bond container and receiving equipment.
• P241 - Use explosion-proof electrical/ventilating/lighting/equipment.
• P242 - Use only non-sparking tools.
• P243 - Take precautionary measures against static discharge.
• P260 - Do not breathe mist/vapours/spray.
• P264 - Wash thoroughly after handling.
• P270 - Do not eat, drink or smoke when using this product.
• P271 - Use only outdoors or in a well-ventilated area.
• P280 - Wear protective gloves and eye/face protection.

Response

• P370+P378 - In case of fire: Use appropriate media for extinction.
• P304+P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
• P312 - Call a POISON CENTER or doctor/physician if you feel unwell.
• P303+P361+P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
• P363 - Wash contaminated clothing before reuse.
• P332+P313 - If skin irritation occurs: Get medical advice/attention.
• P321 - Specific treatment, see supplemental first aid information.
• P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
• P337+P313 - If eye irritation persists: Get medical advice/attention.
• P301+P310 - IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician.
• P331 - Do NOT induce vomiting.
• P314 - Get medical advice/attention if you feel unwell.

Storage/Disposal

• P403+P233 - Store in a well-ventilated place. Keep container tightly closed.
• P235 - Keep cool.
• P405 - Store locked up.
• P501 - Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.
2.3 Other Hazards

**CLP**
- According to Regulation (EC) No. 1272/2008 (CLP) this material is considered hazardous.

**DSD/DPD**
- This product is considered dangerous according to the European Directive 67/548/EEC.

---

### United States (US)

**According to OSHA 29 CFR 1910.1200 HCS**

#### 2.1 Classification of the substance or mixture

**OSHA HCS 2012**
- Flammable Liquids 3
- Aspiration 1
- Skin Irritation 2
- Eye Irritation 2
- Acute Toxicity Inhalation 4
- Specific Target Organ Toxicity Single Exposure 3: Respiratory Tract Irritation
- Specific Target Organ Toxicity Single Exposure 3: Narcotic Effects
- Germ Cell Mutagenicity 2
- Carcinogenicity 2
- Specific Target Organ Toxicity Repeated Exposure 1

#### 2.2 Label elements

**OSHA HCS 2012**

**Hazard statements**

**DANGER**

- Flammable liquid and vapour
  May be fatal if swallowed and enters airways
  Causes skin irritation
  Causes serious eye irritation
  Harmful if inhaled
  May cause respiratory irritation
  May cause drowsiness or dizziness
  Suspected of causing genetic defects.
  Suspected of causing cancer.
  Causes damage to organs - Ear/Ototoxin through prolonged or repeated exposure via Inhalation

**Precautionary statements**

**Prevention**

- Obtain special instructions before use.
- Do not handle until all safety precautions have been read and understood.
- Keep away from heat, sparks, open flames and/or hot surfaces. - No smoking.
- Keep container tightly closed.
- Ground and/or bond container and receiving equipment.
- Use explosion-proof electrical/ventilating/lighting/equipment.
- Use only non-sparking tools.
- Take precautionary measures against static discharge.
**Response**

- In case of fire: Use appropriate media for extinction.
- IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
- Call a POISON CENTER or doctor/physician if you feel unwell.
- IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
- Wash contaminated clothing before reuse.
- If skin irritation occurs: Get medical advice/attention.
- Specific treatment, see supplemental first aid information.
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- If eye irritation persists: Get medical advice/attention.
- IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician.
- Do NOT induce vomiting.
- IF exposed or concerned: Get medical advice/attention.
- Get medical advice/attention if you feel unwell.

**Storage/Disposal**

- Store in a well-ventilated place. Keep container tightly closed.
- Keep cool.
- Store locked up.
- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

### 2.3 Other hazards

**OSHA HCS 2012**

### Canada

**According to WHMIS**

#### 2.1 Classification of the substance or mixture

**WHMIS**

- Flammable Liquids - B2
- Other Toxic Effects - D2A
- Other Toxic Effects - D2B

#### 2.2 Label elements

**WHMIS**

- Flammable Liquids - B2
- Other Toxic Effects - D2A
- Other Toxic Effects - D2B

#### 2.3 Other hazards

**WHMIS**

- In Canada, the product mentioned above is considered hazardous under the Workplace Hazardous Materials Information System (WHMIS).

### Section 3 - Composition/Information on Ingredients

### 3.2 Mixtures

- Material does not meet the criteria of a mixture in accordance with Regulation (EC) No 1272/2008.

### Section 4 - First Aid Measures

#### 4.1 Description of first aid measures

- **Inhalation**
  - Move victim to fresh air. Administer oxygen if breathing is difficult. Give artificial respiration if victim is not breathing. Get medical attention.

- **Skin**
  - In case of burns, immediately cool affected skin for as long as possible with cold water. Do not remove clothing if adhering to skin. Wash the contaminated area of body with soap and fresh water. Remove and isolate contaminated clothing. If irritation develops and persists, get medical attention.

- **Eye**
  - Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing eye. If eye irritation persists: Get medical advice/attention.

- **Ingestion**
  - Do NOT induce vomiting. Get medical attention immediately.

#### 4.2 Most important symptoms and effects, both acute and delayed

- Refer to Section 11 - Toxicological Information.

#### 4.3 Indication of any immediate medical attention and special treatment needed

- **Notes to Physician**
  - All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

### Section 5 - Firefighting Measures

#### 5.1 Extinguishing media

- **Suitable Extinguishing Media**
  - Use CO2, dry chemical, or foam.

- **Unsuitable Extinguishing Media**
  - Water may be ineffective but water should be used to keep fire exposed containers cool.

#### 5.2 Special hazards arising from the substance or mixture

- **Unusual Fire and Explosion Hazards**
  - Containers may explode when heated.
  - Vapor explosion hazard indoors, outdoors or in sewers.
  - HIGHLY FLAMMABLE: Will be easily ignited by heat, sparks or flames.
  - Many liquids are lighter than water.
  - Most vapors are heavier than air. They will spread along ground and collect in low or confined areas (sewers, basements, tanks).
  - Runoff to sewer may create fire or explosion hazard.
  - Vapors may form explosive mixtures with air.
  - Vapors may travel to source of ignition and flash back.
  - Styrene vapor is inhibited and can form polymers that will block the vents or flame arresters of storage tanks.
Hazardous Combustion Products

5.3 Advice for firefighters

- Structural firefighters’ protective clothing will only provide limited protection.
- Wear positive pressure self-contained breathing apparatus (SCBA).
- Move containers from fire area if you can do it without risk.
- LARGE FIRES: Cool containers with flooding quantities of water until well after fire is out.

Section 6 - Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions

- CAUTION: Victim may be a source of contamination. Do not walk through spilled material. Wear appropriate personal protective equipment, avoid direct contact. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.

Emergency Procedures

- As an immediate precautionary measure, isolate spill or leak area for at least 50 meters (150 feet) in all directions. If tank, rail car or tank truck is involved in a fire, ISOLATE for 800 meters (1/2 mile) in all directions; also, consider initial evacuation for 800 meters (1/2 mile) in all directions. LARGE SPILL: Consider initial downwind evacuation for at least 300 meters (1000 feet) ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Keep unauthorized personnel away. Stay upwind. Keep out of low areas. Ventilate closed spaces before entering.

6.2 Environmental precautions

- Refer to Section 8 - Exposure Controls/Personal Protection and Section 13 - Disposal Considerations.

6.3 Methods and material for containment and cleaning up

Containment/Clean-up Measures

- Avoid generating dust.
- Use clean nonsparking tools to collect material.
- Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration.

6.4 Reference to other sections

- Refer to Section 8 - Exposure Controls/Personal Protection and Section 13 - Disposal Considerations.

Section 7 - Handling and Storage

7.1 Precautions for safe handling

Handling

- Use only with adequate ventilation. Keep away from heat, sparks, and flame. All equipment used when handling the product must be grounded. Take precautionary measures against static charges. Empty containers retain product residue and can be hazardous. Do not cut, weld, puncture or incinerate container. Wear appropriate personal protective equipment, avoid direct contact. Do not breathe mist, vapours and/or spray. Avoid contact with skin, eyes, and clothing. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco.

7.2 Conditions for safe storage, including any incompatibilities

Storage

- Contamination of storage facilities, especially with polymerization initiators, must not occur. Keep container closed and in ventilated area, away from ignition sources, heat, open flames, and direct sunlight. Do not store with incompatible materials. Prolonged storage is strongly discouraged and a first in first out rotation system may be useful for proper stock rotation requirements. Check the styrene at least weekly to determine the inhibitor and polymer content if the material is being stored for any period of time in excess of 30 days at 90°F (32°C).

7.3 Specific end use(s)

- Refer to Section 1.2 - Relevant identified uses
### Section 8 - Exposure Controls/Personal Protection

#### 8.1 Control parameters

<table>

</tr>
<tr>
<td>TWAs</td>
<td>20 ppm TWA</td>
</tr>
<tr>
<td>STELs</td>
<td>40 ppm STEL</td>
</tr>
</tbody>
</table>

#### 8.2 Exposure controls

**Engineering Measures/Controls**
- Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Use only appropriately classified electrical equipment.

**Personal Protective Equipment**
- In case of insufficient ventilation, wear suitable respiratory equipment. Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or symptoms are experienced.

- Wear safety goggles.

- Wear appropriate gloves.

**Environmental Exposure Controls**
- Follow best practice for site management and disposal of waste. Controls should be engineered to prevent release to the environment, including procedures to prevent spills, atmospheric release and release to waterways.

9.2 Other Information
   • No additional physical and chemical parameters noted.

Section 10: Stability and Reactivity

10.1 Reactivity
   • No dangerous reaction known under conditions of normal use.

10.2 Chemical stability
   • Stable under normal temperatures and pressures.

10.3 Possibility of hazardous reactions
   • Hazardous polymerization may occur, with heat evolution, under certain conditions; including increased heat, low inhibitor concentration, and low oxygen concentration.

10.4 Conditions to avoid
   • Excess heat, sparks, open flame.

10.5 Incompatible materials
   • Styrene can react dangerously with oxidizing materials such as chlorosulfonic acid, oleum and sulfuric acid. Also metal salts, acids, caustic, aluminum chloride, ferric chloride and chlorine gas.

10.6 Hazardous decomposition products
   • Acrid vapor upon heating. Production of carbon monoxide, carbon dioxide and styrene oxide

14.6 Special precautions for user
- None specified.

14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
- NDA

Section 15 - Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

SARA Hazard Classifications
- Acute, Chronic, Fire

Inventories
- These products comply with the following inventories:
  - Australia AICS
  - Canada DSL/NDSL
  - China
  - EU EINECS/ ELNICS
  - Japan ENCS
  - Korea KECL
  - New Zealand
  - Philippines PICCS
  - USA TSCA
California Prop 65 • In compliance, no reportable substances

CONEG • These products are in compliance with the heavy metals requirements of the Coalition of Northeastern Governors and California Toxics in Packaging Prevention Act (AB2021).

WHIMS Classification • The component Styrene (CAS 100-42-5) is classified as B2, D2A

15.2 Chemical Safety Assessment
• No Chemical Safety Assessment has been carried out.

Section 16 - Other Information

Disclaimer/Statement of Liability
It is your responsibility to determine that our product is safe, lawful, and technically suitable for your intended uses. This safety data sheet cannot cover all possible situations which the user may experience during processing. Each aspect of the user's operation should be examined to determine if, or where, additional precautions may be necessary. All health and safety information contained in this safety data sheet should be provided to employees and/or customers. Westlake Styrene LLC must rely on the user to use this information to develop appropriate work practice guidelines and employee instructional programs specific to the user's operation.

As the conditions and methods of use are beyond our control, we do not assume any responsibility and expressly disclaim any liability for any use of these products. Information contained herein is believed to be true and accurate, but all statements or suggestions are made without warranty, expressed, or implied, regarding accuracy of the information, the hazards connected with the use of the material or the results to be obtained from the use thereof. Compliance with all applicable international, federal, state, and local laws and regulations regarding the use, storage, sale, transport or disposal of this material is the responsibility of the user.

Westlake Styrene LLC does not endorse or claim suitability of its product for any particular use. WESTLAKE MAKES NO WARRANTY OF MERCHANTABILITY AS TO ITS STYRENE PRODUCTS. WESTLAKE MAKES NO WARRANTIES, EXPRESS OR IMPLIED, CONCERNING THE SUITABILITY OR FITNESS OF ANY WESTLAKE PRODUCT FOR ANY PARTICULAR USE. Westlake’s liability and your exclusive remedy for any claim arising out of the sales of its products are expressly limited at Westlake’s option to replacement of non-performing goods or payment not to exceed the purchase price plus transportation charges thereon in respect to any material which damage is proven and claimed.

The information in this sheet is valid for cited regulations published as of the date this document was prepared, as shown herein. Updates may be prepared as the regulations are amended or pending revised information about the product. It is the customer's responsibility to seek updated regulatory information on any specific product.
