

EVERY MILESTONE MATTERS

As we turn the page on 40 years of growth, innovation and disciplined expansion, Westlake (NYSE: WLK) remains driven to outperform.

What began in 1986 as a single polyethylene facility has grown into a leading global, diversified industrial company that employs upwards of 14,600 people around the world. Through it all, quality, safety and sustainability have remained at the core of everything we do. Because when you're responsible for the solutions everyday life depends on, it matters how every piece is made.

TWO SEGMENTS. ONE MISSION.

Whether it's our Performance & Essential Materials or Housing & Infrastructure Products, Westlake develops and manufactures solutions that raise homes, enhance healthcare, power industry and strengthen communities.

PERFORMANCE & ESSENTIAL MATERIALS

Our Performance & Essential Materials segment focuses on the foundational chemistries that power modern life. From polyethylene and vinyls to chlor-alkali, olefins and epoxy, these materials serve as the building blocks behind countless essential products.

They help protect food and medical supplies, serve as the foundation for building materials, strengthen automotive interiors and exteriors, support water and agricultural systems, and enable applications ranging from detergents to pharmaceuticals—making them essential to everyday life.

This segment includes:

- **Westlake North American Vinyls**
- **Westlake North American Chlor-alkali & Derivatives**
- **Westlake European & Asian Chlorovinyls**
- **Westlake Olefins**
- **Westlake Polyethylene**
- **Westlake Epoxy**
(coatings and composites used across multiple industries)

AT A GLANCE Business Segments: Performance & Essential Materials, Housing and Infrastructure Products Founded: 1986 by Mr. T.T. Chao Public Company: NYSE: WLK (2004) 2801 Post Oak Blvd., Ste. 600 | Houston, Texas 77056 Tel: 713-960-9111 | westlake.com

HOUSING & INFRASTRUCTURE

Our Housing & Infrastructure Products segment focuses on the finished goods and specialized materials that help bring projects to life—from homes and commercial spaces to critical water systems.

They enhance curb appeal with durable siding, stone and roofing. They support essential infrastructure through reliable pipe and fittings. And they enable performance-driven applications through advanced custom compounds.

This segment includes:

Westlake Royal Building Products™ – A leading manufacturer of high-quality, low-maintenance building products with an unmatched array of colors, styles and accessories.

Westlake Global Compounds – An innovator in PVC compounds and solutions used in wire and cable, disposable medical devices, consumer goods, vinyl records, wallpaper, pool liners, automotive applications, and more.

Westlake Pipe & Fittings – The second-largest PVC pipe manufacturer in North America, offering a wide range of pipe & fittings, including rubber gasketed, solvent weld and restrained joints.

Westlake Dimex – A leader in post-industrial recycled PVC and plastic, transforming recovered materials into compounds used for garden edging, home and office floor mats, and marine dock edging.

Backed by upwards of 14,600 employees across the globe and guided by our commitment to quality, safety and sustainability, we bring our businesses together to ensure that as communities grow and infrastructure expands, every piece delivers lasting performance.
