

Blending our chemical capabilities with a strong, downstream building products business, Westlake delivers life-enhancing products that benefit lives every day. From our polyethylene that is used daily in food packaging like bread bags, cheese wrapping and milk cartons, to our PVC pipe which is used to deliver clean drinking water and to irrigate fields, these products enhance people's lives every day. With our core value of being a good corporate citizen, we are committed to being a leader in sustainable practices and a responsible environmental steward.

PEOPLE

81% of employees globally are "Sustainably Engaged*"

COMMUNITY RELATIONS

At Westlake Chemical, we recognize the importance of supporting the communities in which we work and live and make it a priority to take an active role in making these communities better.

ETHICS

Non-Discrimination Policy

Westlake is an equal opportunity employer and promotes a highly engaged and inclusive work environment free from discrimination. We operate honestly and ethically and are accountable for our actions.

WESTLAKE SCHOLARSHIP

For 23 years, Westlake has been providing scholarships to children of its employees. In 2019, Westlake notified another 103 college-bound students that they were recipients of the Westlake Scholarship. Scholarships are generally renewable for up to four years of undergraduate study provided the student maintains specific academic standards.

SAFETY

Core Value of Westlake Chemical

More than 30 years ago, the words of Westlake founder T.T. Chao - now displayed on a plaque at every Westlake facility around the world - established the company's culture of safety. He said:

"We have put safety first, and it will remain our number one priority. No job can be so important or urgent that people cannot take the time to work safely. Life is precious and irreplaceable."

OUR COMMITMENT TO SAFETY

BENEFITS

Healthcare & Safety

From blood bags to dialysis machines, we're proud to manufacture the building blocks for medical devices that keep us healthy and safe.

Lifestyle & Convenience

Quality of life, versatility, and consistent reliability. These are the fundamentals behind our ever-expanding range of everyday solutions that help people thrive around the world.

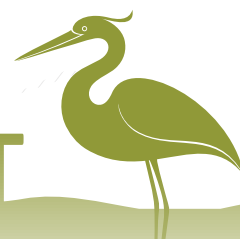

Building & Construction

Our products strengthen the world's communities by protecting natural resources, providing clean water through pipe and water treatment, including supporting more durable and energy-efficient structures, and beautifying the places we live, work, and play.

PLANET

PROTECTING OUR ENVIRONMENT

ACTING RESPONSIBLY

Westlake is committed to the guiding principle of responsible corporate action and sustainable development that combines financial success with social responsibility and responsibility for the environment. As a result, we are constantly improving our operational efficiency.

As a result, we constantly look for opportunities to improve our operations. From 2014 to 2017, through investments and efficiency improvements, Westlake achieved a nearly 30 percent reduction in CO₂ emissions.

As a part of Westlake's continuous improvement efforts, new projects saved 130 million gallons of water in 2017. That's enough water to fill nearly 200 olympic-sized swimming pools.

→ [READ ABOUT OUR EFFORTS](#)

Energy savings projects at Westlake facilities in 2017 and 2018 have saved in excess of 10 million kilowatt-hours. That's enough to power 1,000 homes for a year!*
